COLLECTION AGENCIES LICENSE INFORMATION

AS OF 1/9/2020

This information allows you to verify whether a collection agency is licensed by the State of Colorado. You may also determine whether there is any public record of action involving this office and the collection agency. The address listed is for the principal place of business. Contact our office for information on other branch office locations.

Collection Agency Licenses

A collection agency license is required, in most cases, to collect debts in default owed to others or that were originally owed to others. Only one license is required regardless of the number of branch offices. Generally, creditors collecting debts they originated or purchased before the debts were in default do not need a license. Collection agency licenses expire July 1st of each year and must be renewed at that time.

"Status" Category

The "Status" category provides the following information:

A = license is active
C= license is been cancelled (often due to a change in ownership whereby the new owners must apply for a new license and former owners' license is "cancelled")
D = license was denied
E = license his expired (often due to failure to renew license on time or failure to maintain a surety bond)
R = license was been revoked

"Action" Category

In addition to the "Status" column that shows revocations, the "Action" category enables you to determine whether the licensee was subject to legal or administrative action by this office or the licensee entered into a voluntary settlement with this office. If the entry is "yes," the licensee may have been subject to one or more letters of admonition, suspension of the license, a judgment or order against the licensee, or other action, including payments (fines, penalties, consumer refunds, or other monetary payments). Additionally, "yes" may mean that the licensee's records include a voluntary settlement or stipulation with this office. If a licensee has been disciplined, it might still retain its license. Contact this office for more information.
