STATE OF COLORADO)
) ss.
CITY AND COUNTY OF DENVER)

Of the 2019-2020 term of the Denver District Court in the year of 2020, the 2019-2020 State Grand Jurors, chosen, selected and sworn in the name and by the authority of the People of the State of Colorado, upon their oaths, present the following:

COUNT 1

INDUCEMENT TO SELL OR DISTRIBUTE A CONTROLLED SUBSTANCE – SCHEDULE I OR II, C.R.S. 18-18-405(1),(2)(C)(I) (DF3)

On or about July 12, 2019, in Logan County, State of Colorado, **Brittney Beth Lewton**, unlawfully, feloniously and knowingly induced or attempted to induce Tina Dobson to sell or distribute hydrocodone, a schedule I or II controlled substance.

Further, the violation involved any material, compound, mixture or preparation that weighed no more than fourteen grams; in violation of section 18-18-405(1), (2)(c)(I), C.R.S.

COUNT 2

CONSPIRACY TO SELL OR DISTRIBUTE A CONTROLLED SUBSTANCE – SCHEDULE I OR II, C.R.S. 18-18-405(1),(2)(C)(I) (DF3)

On or about July 12, 2019, in Logan County, State of Colorado, **Brittney Beth Lewton**, unlawfully, feloniously, and knowingly conspired with Tina Dobson to sell or distribute hydrocodone, a schedule I or II controlled substance.

Further, the violation involved any material, compound, mixture or preparation that weighed no more than fourteen grams; in violation of section 18-18-405(1), (2)(c)(I), C.R.S.

COUNT 3

POSSESSION OF A CONTROLLED SUBSTANCE – SCHEDULE I OR II, C.R.S. 18-18-403.5(1),(2)(A) (DF4)

On or about July 12, 2019, in Logan County, State of Colorado, **Brittney Beth Lewton**, unlawfully, feloniously, and knowingly possessed a material, compound, mixture, or preparation that contained hydrocodone, a schedule I or II controlled substance; in violation of section 18-18-403.5(1),(2)(a), C.R.S.

COUNT 4

FIRST DEGREE OFFICIAL MISCONDUCT, C.R.S. 18-8-404 (M2)

On or about July 12-17, 2019, in Logan County, State of Colorado, **Brittney Beth Lewton**, a public servant, with intent to obtain a benefit for her, the public servant, or another person, unlawfully and knowingly committed an act relating to her office but constituting an unauthorized exercise of her official function; in violation of section 18-8-404, C.R.S.

The essential, but non-exclusive, facts in support of Counts 1-4 are as follows:

On Friday, July 12, 2019, at approximately 3:00 p.m., a group of staff members employed by the Office of the District Attorney for the 13th Judicial District were in the DA's Office, located at 110 N. Riverview Rd. in Sterling, Logan County, Colorado. A meeting regarding the reallocation of duties involving some of the employees was being conducted. This meeting included, but was not limited to, the participation and involvement of District Attorney Brittney Beth Lewton (hereinafter DA Lewton), her new employee named Tina Dobson, and a long-serving employee whose initials are M.R.

Throughout the course of this investigation evidence was developed showing that during this afternoon meeting on July 12, 2019 DA Lewton observed a bag of pills on the desk of Tina Dobson that had been brought to the DA's Office by Ms. Dobson. DA Lewton then initiated a conversation with Ms. Dobson by first inquiring about the pills before she eventually picked up the bag of pills. According to M.R. this bag probably contained three pill bottles (two being orange in color and one being white in color). Upon DA Lewton picking up the bag of pills she focused on some loose pills in the bag. M.R. recounted that Ms. Dobson responded to DA Lewton's inquiry about the loose pills by saying that the loose pills belonged to her husband. DA Lewton then said to Ms. Dobson something to the effect of, "Oh, ...those are the good ones," with their conversation at this time shifting to a discussion about Percocet and hydrocodone. DA Lewton then concluded this interaction by putting down the bag of pills and going back to her office.

Regarding the pills at issue, evidence was acquired by investigators and the Grand Jury that during the evening of July 11, 2019, Ms. Dobson had been treated in the Emergency Room (ER) at the Sterling Regional Medical Center. Upon Ms. Dobson being discharged from the ER she was dispensed a schedule II controlled substance. The particular schedule II controlled substance that was dispensed by the medical center for the benefit of Ms. Dobson was in the form of a Take Home Pack, which consisted of a prescription pain medication with each pill containing 5 mg of hydrocodone and 325 mg of acetaminophen. This material, compound, mixture, or preparation is sometimes branded under the name of Norco. According to evidence that was developed through the investigation this Take Home Pack was a sealed, pre-packaged pill bottle that comes from the manufacturer and consists of six (6) pills. A red colored seal is

placed over the top of the cap by a pharmacy technician at the medical center before being dispensed in the ER. This Take Home Pack was designed to provide patients, like Ms. Dobson, with an opportunity to manage their pain for less than twenty-four hours until the patient could fill their prescription for another controlled substance during hours when a pharmacy would be expected to be open. Ms. Dobson ultimately filled a prescription for oxycodone on July 12, 2019. The total weight of the schedule II controlled substance contained in the 6 pills was less than 14 grams since each pill contained 5 mg of hydrocodone.

Then, at approximately 4:20 p.m. on July 12, 2019, DA Lewton came out of her office and asked M.R. to send out an email so that everyone could go home early at 4:30 p.m. M.R. then perceived DA Lewton approach Ms. Dobson's desk with DA Lewton initiating another interaction by asking Ms. Dobson something to the effect of, "Are you going to help a sister out?" or "Can you help a sister out?" M.R. turned around and observed Ms. Dobson grab the bag of pills and hand it to DA Lewton. DA Lewton then opened Ms. Dobson's bag with DA Lewton grabbing and pulling out a white colored bottle that was sealed with a red colored label. According to M.R. DA Lewton commented that the white bottle with the red label was unopened, which was followed by her [DA Lewton] opening the sealed bottle using a pen to stab/puncture the sealed bottle. While this was going on DA Lewton and Ms. Dobson were discussing how many pills would be in the bottle. M.R. stated that DA Lewton looked into the bottle, closed the lid, and walked out of the office while also dropping this bottle into her purse. M.R. testified to the Grand Jury that she was in shock as to what had just taken place in the DA's Office.

M.R.'s further testimony to the Grand Jury included evidence that because of what she had just observed inside the DA's Office, along with other factors that she was aware of, M.R. immediately went to the office of Chief Deputy District Attorney Anthony "Tony" Gioia and closed the door. M.R. told Mr. Gioia about the pill distribution transaction that had just occurred between DA Lewton and Ms. Dobson. M.R. then told the Grand Jury that Mr. Gioia asked her a question to the effect of whether a drug deal just went down in the office. M.R. then answered Mr. Gioia's question by saying "Yeah." M.R. then told Mr. Gioia that everybody thinks that DA Lewton's been clean and she hasn't been. M.R. followed up by telling Mr. Gioia that she could not believe that the transaction had just happened. M.R. continued with her testimony to the Grand Jury by saying that Mr. Gioia hung his head and said, "I'm sorry..." M.R. also recounted that Mr. Gioia appeared to be in disbelief and was kind of shocked. M.R.'s report to and interaction with Mr. Gioia lasted approximately five minutes.

As M.R. left the DA's Office that evening she texted DA Investigator Mike Jones and asked if she could call him. While M.R. was waiting for Inv. Jones' response, M.R. called another employee at the DA's Office to tell that employee what had occurred earlier that day inside the DA's Office. At approximately 8:00 p.m. on July 12, 2019, M.R. received a text from Inv. Jones that they could talk. Then, at approximately 9:00 p.m. on that same Friday evening, M.R. called Inv. Jones back and passed along the observations that she had seen and heard that day. Inv. Jones expressed to M.R. that what was being described constituted a crime and that Chief DA Investigator Jeff Huston needed to be called.

Inv. Jones and Chief Inv. Huston determined that they would contact the Colorado Bureau of Investigation (CBI) and make a referral to them to investigate the allegations that M.R. had observed and reported. M.R. expressed concerns about her employment because of being the reporting party. Inv. Jones then relayed a message to M.R. that CBI was requesting her to prepare and submit a written statement to CBI about the facts that were observed. As a result of this request M.R. submitted a written statement to CBI in the early morning hours of Saturday, July 13, 2019. Contemporaneous to these steps occurring, M.R. also reached out that night to Chief Deputy District Attorney Travis Sides, the senior prosecutor in the Fort Morgan branch of the DA's Office for the 13th Judicial District. Mr. Sides then called M.R. back at approximately 1:30 a.m. on July 13, 2019, which allowed M.R. to tell Mr. Sides about the allegations involving DA Lewton acquiring pills from Ms. Dobson while at work inside the Sterling branch of the DA's Office. Mr. Sides, in his sworn testimony to the Grand Jury, remembered M.R. stating to him that DA Lewton had said to Ms. Dobson something to the effect of, "Can you hook a girl up? Can you hook a sister up?" Mr. Sides then stated to the Grand Jury that he did send CBI a formal request for CBI to investigate the allegations. According to Mr. Sides he stated a belief that a violation of Colorado law had occurred on July 12, 2019, inside the DA's Office in Sterling. It should be noted that Mr. Sides later believed that Logan County Sheriff Brett Powell also made a referral to CBI seeking an investigation into the allegations that were summarized above. Mr. Sides then told the Grand Jury that if there's an allegation of criminal wrongdoing within the DA's Office, "How do you not look into it?" Mr. Sides also added that hydrocodone is a schedule II controlled substance and that it is the same schedule as street drugs like methamphetamine and cocaine.

Mr. Sides specifically remembered that M.R. had described to him that Ms. Dobson's pill bottle, which was made available to DA Lewton, was white in color and had a red seal. Mr. Sides learned that this description was consistent with the types of pill bottles containing controlled substances that were dispensed by the Sterling Regional Medical Center to patients upon being discharged from the ER. Mr. Sides independently sought out information from his own research, including talking to a staffer at the medical center, in an attempt to verify M.R.'s details about the pill bottle at issue. In the end, Mr. Sides was able to obtain information that corroborated this key detail that had been described to him by M.R.

Mr. Gioia made some statements during the investigation that were admitted as part of the record. For example, Mr. Gioia stated that he learned about M.R.'s observations that were summarized above, including him being told by M.R. that DA Lewton had made a request of Ms. Dobson to the effect of "Have you got somethin' for me, girl?" Next, Mr. Gioia also said that after M.R. had shared with him the observations of the Lewton/Dobson transaction that he responded to M.R. with a "kind of a shrug of the shoulders" with him saying to M.R. "I don't know what to tell you." However, Mr. Gioia stated that based on what he had heard from M.R. he was concerned that Tina Dobson had distributed a controlled substance to DA Lewton. Mr. Gioia then stated that he had awareness that Ms. Dobson had Vicodin and that may have been the pain medication at issue. Mr. Gioia confirmed that hydrocodone, which is the controlled substance contained in Vicodin, is a schedule II controlled substance, just like methamphetamine and cocaine.

Evidence was acquired that DA Lewton had shared with some staff at the DA's Office information that her medical provider(s) had entered strict orders or had cut her off from receiving certain medications.

In terms of Inv. Mike Jones' testimony before the Grand Jury on January 23, 2020, he added that M.R. specifically described to him that the bottle that was transferred to DA Lewton was white in color and had a red security label. Next, Inv. Jones felt that based on the facts, which had been described to him by M.R., he had an ethical duty to report these allegations and that he did so without hesitation. Inv. Jones stated that he talked with Mr. Sides on Saturday, July 13, 2019 and based on what was being described by M.R. they discussed that this "wasn't good," meaning that the allegations were not good for the profession, for the office, and for DA Lewton. Then, during the evening of Tuesday, July 16, 2019, Inv. Jones received a phone call from DA Lewton. Inv. Jones described DA Lewton as sounding "panicked" while she stated to him that CBI agents were at Mr. Gioia's home and she wanted to know if he knew why. When Inv. Jones said that he could not tell her, DA Lewton was irate while telling him, "If you want to keep your job, you need to start talking." DA Lewton followed up by asking Inv. Jones if CBI was coming to her home, to which Inv. Jones responded by saying that he could not tell her. DA Lewton then concluded the phone call with Inv. Jones by saying, "Well, you can consider yourself suspended" with her hanging up.

On Wednesday, July 17, 2019, Inv. Jones sent DA Lewton a text message wanting to learn more about his suspension. After a series of text messages occurring between DA Lewton and Inv. Jones, a phone call later occurred between the two of them. Inv. Jones described DA Lewton confirming to him that she had talked with CBI the night before. DA Lewton then stated to Inv. Jones that if he wanted to hear her side of the story, he could go to her house to talk face to face. Inv. Jones then testified that he called CBI Agent-in-Charge Jodi Wright and told her that he planned on going over to DA Lewton's home. Inv. Jones stated to the Grand Jury that Agent Wright told him that he could not be an agent acting on behalf of CBI. Inv. Jones re-affirmed to the Grand Jury that he went to DA Lewton's home in his individual or employee capacity to primarily discuss his suspension, but to also support a friend who was going through a difficult time. When Inv. Jones arrived at DA Lewton's home during the midday time period no other people were present, so he let himself in after being invited by DA Lewton. Inv. Jones met with DA Lewton for approximately one hour. During this interaction, DA Lewton was very apologetic, especially regarding Inv. Jones' suspension. DA Lewton essentially told Inv. Jones that M.R.'s allegations were true.

Inv. Jones told the Grand Jury that during the pendency of this investigation that DA Lewton has spoken to him and that DA Lewton confirmed that the prescription narcotic that she received from Ms. Dobson was a schedule II "painkiller." Inv. Jones did not remember if the painkiller was Percocet (oxycodone and acetaminophen) or hydrocodone or oxycodone. Inv. Jones did emphasize that at some point in time DA Lewton informed him that the one fact that she took issue with was an allegation that she had allegedly said to Ms. Dobson words to the effect of whether Ms. Dobson was going to hook a sister up. Inv. Jones said that DA Lewton told him that she does not even talk that way. Finally, Inv. Jones also stated that DA Lewton admitted to ingesting the pills that she had obtained from Tina Dobson.

Note: Pursuant to Colorado law hydrocodone and oxycodone are both listed as schedule II controlled substances, like cocaine and methamphetamine. Therefore material, compounds, mixtures and preparations like Vicodin and its brand derivations like Norco (containing both hydrocodone and acetaminophen) and Percocet (containing both oxycodone and acetaminophen) also contain schedule II controlled substances.

Ms. Dobson informed CBI on July 16, 2019, in a consensual interview at her home, that she had been treated at the medical center on July 11, 2019 and had been given hydrocodone (a schedule II controlled substance) by the medical center to hold her over until she could get her oxycodone prescription filled. She then talked to CBI about bringing a bag full of pills to the office the next day on July 12, 2019. Besides the unused hydrocodone that had been dispensed to her, this bag also included some loose oxycodone pills that had belonged to her husband. Ms. Dobson then talked about DA Lewton being looped in on Ms. Dobson's medical issue and that she provided the hydrocodone at issue to DA Lewton. Ms. Dobson described that the hydrocodone was in a small container with a lid on it and she thought it was from the manufacturer. Ms. Dobson said that she did not use any of the dispensed pills containing hydrocodone because she was using the oxycodone. As a result of this, Ms. Dobson stated that she [Ms. Dobson] gave DA Lewton the whole, sealed bottle of pills containing hydrocodone that had been prescribed for and dispensed to Ms. Dobson. Ms. Dobson said that she believed that DA Lewton opened the bottle by breaking the seal and that there were a couple of whole ones [pills] and there was one [pill] that looked like it was broken in half. Ms. Dobson also told CBI that she thinks that DA Lewton uttered a statement such as, "Are you gonna help the sister out?" Ms. Dobson was then asked by CBI if she was concerned about giving DA Lewton medication that was not hers. Ms. Dobson responded that DA Lewton was about to have a procedure so she [Ms. Dobson] did not really think much about allowing DA Lewton to take the pain medication that had been prescribed for and dispensed to Ms. Dobson. Ultimately, Ms. Dobson stated that she knew that she should not have given DA Lewton the pills and that she had second thoughts about having done so after she had left the office that day.

Evidence in the form of statements from DA Lewton's July 16, 2019 interview with CBI was admitted as part of the Grand Jury record. This interview occurred at DA Lewton's home. In this interview DA Lewton started out by informing CBI that Inv. Jones and Mr. Sides were looking at suspension because they were unwilling to tell her what was being investigated. DA Lewton also wanted to know who was making the allegation because she speculated that it could have been an employee, or someone who knew her, or it was a CI, meaning a Confidential Informant. CBI then heard DA Lewton say that, at the time of the interview, she did not have any opioids or anything like that. DA Lewton did acknowledge that Ms. Dobson was the person who provided her with the pills. DA Lewton told CBI it was just two pills and she believed that the pills were Percocet.

Note: The investigation determined that the actual schedule II controlled substance at issue was hydrocodone that was contained in Norco, which is synonymous with Vicodin. Norco and/or Vicodin is a combination of hydrocodone and acetaminophen. Percocet is a combination of oxycodone and acetaminophen. All of the above controlled substances are considered opioids.

Early in the interview DA Lewton said that she was aware that Ms. Dobson had some medical issues the night before, had gone to the ER, and that Ms. Dobson had received a bottle of pills. DA Lewton specifically stated that she guessed that the emergency room gave Ms. Dobson two or three [bottles], and that Ms. Dobson had a whole other bottle. DA Lewton stated that she was joking with Ms. Dobson about a couple of Percocet, which were described as being "great." Ultimately, DA Lewton's version to CBI was that Ms. Dobson gave her [DA Lewton] the two pills that had been given to Ms. Dobson to hold her [Ms. Dobson] overnight. DA Lewton said that she put the pills in her bag and left the office. DA Lewton then stated that she took the pills that night. It was inferred that when Ms. Lewton "took" the pills it meant that she had ingested them. When CBI asked DA Lewton, "Why would you take the prescriptions pills not prescribed to you?" DA Lewton answered, "Cause I wanted to. I don't know, cause I just did." Then, CBI asked DA Lewton, "You realize that's against the law? You realize that's a criminal act?" DA Lewton responded by saying, "Yeah, I do."

When CBI asked DA Lewton if she had said to Ms. Dobson, "Can you help a sister out," or "Will you help a sister out," she responded by asking the CBI interviewer, "Does that sound like anything I would say?" DA Lewton then followed that up by saying, "I - I didn't - I don't recall making that statement." Later DA Lewton said regarding an allegation that she used one of the above cited quotes, "So I don't generally say that phraseology. So I - but if I said it, I could've been talking about a defendant. I coulda been talkin' about.... I can't say for sure that the words...never came out of my mouth. I just don't recall saying that in conjunction with, with that exchange...." Regarding the factual dispute as to whether that type of statement could have been made by DA Lewton to Ms. Dobson on July 12, 2019, evidence was admitted showing that on July 17, 2018, DA Lewton sent a text to a now former co-worker at the DA's Office asking the following question, "Can you hook a girl up?"

When the interview shifted to a discussion about the pill bottle DA Lewton agreed that it was a little bottle and that she had never seen anything like it. She then said that the bottle had red tape over it and that is why she knew it had not been opened. DA Lewton agreed that the bottle was kind of like a "sample bottle." The CBI investigator asked DA Lewton whether she had said that it was hydrocodone. DA Lewton responded by saying, "I'm pretty - yeah. It was hy- it was hydrocodone APAP, uh whatever. It's Percocet. It's the - it's the stuff that's ... mixed with, uh acetaminophen."

DA Lewton then stated to CBI that she did not take the bottle and she thought that she threw the bottle in the trash at the office while putting the pills in her purse. Next, DA Lewton, unprompted, said that Ms. Dobson had to poke the seal of the bottle, before saying that she did not remember if it was Ms. Dobson or her who actually poked the seal. Later, DA Lewton talked about her past experience with Percocet and Vicodin, with her specifically talking about Vicodin, with Vicodin being called "Norco or something." She said that she looked to see what it [the Dobson controlled substance] was and because she recognized the name, she knew that it [the Dobson controlled substance] would not make her sick. Toward the end of the interview DA Lewton acknowledged that she knew that the Dobson pills were schedule II, meaning a schedule II controlled substance.

The Grand Jury developed evidence that just three days prior to the Dobson/Lewton pill transaction that has been summarized above, DA Lewton had a prescription filled on July 9, 2019. A review of records kept by the State's Prescription Drug Monitoring Program (PDMP) showed that on July 9, 2019, DA Lewton had received a prescription from an authorized prescriber at the medical practice which serves as her primary care provider. This prescription, which was filled at a pharmacy, was for a 12-day supply of Hydrocodone Chlorphen ER Suspension. The relevance of this filled prescription for a controlled substance is that Ms. Lewton had already received a lawfully prescribed and dispensed controlled substance that was designed to last her 12 days beginning on July 9, 2019. The Grand Jury then learned that pursuant to §12-280-408, C.R.S., the PDMP exempts licensed or certified hospitals from having to report to the PDMP the dispensing of a controlled substance within the hospital for a chart order or when dispensing less than or equal to a twenty-four hour supply of a controlled substance. It is reasonable to infer that as a result of this statutory exemption, the PDMP does not reflect the Take Home Pack of Norco 5/325, with its six (6) pills, each containing 5 mg of hydrocodone that was dispensed by the Sterling Regional Medical Center to Tina Dobson during the evening of July 11, 2019. Ms. Dobson's prescription for the oxycodone that was filled on July 12, 2019 was reflected on the PDMP.

Finally, the Grand Jury learned that on Friday, July 12, 2019, at 4:30 p.m. Ms. Lewton had a medical appointment with the same primary care provider who had just prescribed Ms. Lewton the above referenced 12-day supply of a controlled substance on July 9, 2019. This appointment was originally scheduled to occur at 10:50 a.m. on Friday, July 12, 2019. The acquired records appear to show that Ms. Lewton's appointment was rescheduled to 4:30 p.m. on Friday, July 12, 2019.
