RE: Public feedback requested on SB-20-211; public meeting on October 1, 2020 at 1 pm via Zoom

To Whom It May Concern:

[SB-20-211](#) (the “Act”) imposed certain limitations on extraordinary collection actions from the effective date of the Act to November 1, 2020. The Act authorized the Administrator of the Uniform Consumer Credit Code (“Administrator”) to issue an Order extending the limitations on extraordinary collection actions described in Section 2 of the Act through February 1, 2021. To issue such an Order, the Administrator must find that such an extension is necessary “to preserve and prioritize the resources of state and local agencies or to protect Colorado residents from economic hardship as a result of the disaster emergency caused by COVID-19.”

The Administrator is seeking input from the public on whether to issue an Order. The Administrator requests any feedback that the members of the public believe will be helpful to the determination required by the Act. In particular, she requests feedback on how the limitations in the Act are functioning in practice, the need to preserve and prioritize the resources of state and local agencies, and the extent of continuing economic hardship experienced by Colorado residents as a result of the disaster emergency caused by COVID-19. The Administrator requests any written feedback by October 1, 2020 by email (car@coag.gov). The Administrator’s staff will also hold a public meeting at 1 pm on Thursday, October 1, 2020 via Zoom to gather feedback.
