

Exhibit A

POTENTIAL OPIOID ABATEMENT APPROVED PURPOSES

I. TREATMENT

A. TREATMENT OF OPIOID USE DISORDER AND ITS EFFECTS

1. Expand availability of treatment, including Medication-Assisted Treatment (MAT), for Opioid Use Disorder (OUD) and any co-occurring substance use or mental health issues.
2. Supportive housing, all forms of FDA-approved MAT, counseling, peer-support, recovery case management and residential treatment with access to medications for those who need it.
3. Treatment of mental health trauma issues that resulted from the traumatic experiences of the opioid user (e.g., violence, sexual assault, human trafficking) and for family members (e.g., surviving family members after an overdose or overdose fatality).
4. Expand telehealth to increase access to OUD treatment, including MAT, as well as counseling, psychiatric support, and other treatment and recovery support services.
5. Fellowships for addiction medicine specialists for direct patient care, instructors, and clinical research for treatments.
6. Scholarships for certified addiction counselors.
7. Clinicians to obtain training and a waiver under the federal Drug Addiction Treatment Act to prescribe MAT for OUD.
8. Training for health care providers, students, and other supporting professionals, such as peer recovery coaches/recovery outreach specialists, including but not limited to training relating to MAT and harm reduction.
9. Dissemination of accredited web-based training curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service-Opioids web-based training curriculum and motivational interviewing.
10. Development and dissemination of new accredited curricula, such as the American Academy of Addiction Psychiatry's Provider Clinical Support Service Medication-Assisted Treatment.
11. Development of a multistate/nationally accessible database whereby health care providers can list currently available in-patient and out-patient OUD treatment services that are accessible on a real-time basis.

12. Support and reimburse services that include the full American Society of Addiction Medicine (ASAM) continuum of care for OUD.
13. Improve oversight of Opioid Treatment Programs (OTPs) to assure evidence-informed practices such as adequate methadone dosing.

B. INTERVENTION

1. Ensure that health care providers are screening for OUD and other risk factors and know how to appropriately counsel and treat (or refer, if necessary) a patient for OUD treatment.
2. Fund Screening, Brief Intervention and Referral to Treatment (SBIRT) programs to reduce the transition from use to disorder.
3. Training and long-term implementation of SBIRT in key systems (health, schools, colleges, criminal justice, and probation), with a focus on the late adolescence and young adulthood when transition from misuse to opioid disorder is most common.
4. Purchase automated versions of SBIRT and support ongoing costs of the technology.
5. Training for emergency room personnel treating opioid overdose patients on post-discharge planning, including community referrals for MAT, recovery case management and/or support services.
6. Support work of Emergency Medical Systems, including peer support specialists, to connect individuals to treatment or other appropriate services following an opioid overdose or other opioid-related adverse event.
7. Create school-based contacts whom parents can engage to seek immediate treatment services for their child.
8. Develop best practices on addressing OUD in the workplace.
9. Support assistance programs for health care providers with OUD.
10. Engage non-profits and faith community as a system to support outreach for treatment.

C. CRIMINAL-JUSTICE-INVOLVED PERSONS

1. Address the needs of persons involved in the criminal justice system who have OUD and any co-occurring substance use disorders or mental health (SUD/MH) issues.

2. Support pre-arrest diversion and deflection strategies for persons with OUD and any co-occurring SUD/MH issues, including established strategies such as:
 - a. Self-referral strategies such as Angel Programs or the Police Assisted Addiction Recovery Initiative (PAARI);
 - b. Active outreach strategies such as the Drug Abuse Response Team (DART) model;
 - c. “Naloxone Plus” strategies, which work to ensure that individuals who have received Naloxone to reverse the effects of an overdose are then linked to treatment programs;
 - d. Officer prevention strategies, such as the Law Enforcement Assisted Diversion (LEAD) model; or
 - e. Officer intervention strategies such as the Leon County, Florida Adult Civil Citation Network.
3. Support pre-trial services that connect individuals with OUD and any co-occurring SUD/MH issues to evidence-informed treatment, including MAT, and related services.
4. Support treatment and recovery courts for persons with OUD and any co-occurring SUD/MH issues, but only if they provide referrals to evidence-informed treatment, including MAT.
5. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate services to individuals with OUD and any co-occurring SUD/MH issues who are incarcerated, on probation, or on parole.
6. Provide evidence-informed treatment, including MAT, recovery support, harm reduction, or other appropriate re-entry services to individuals with OUD and any co-occurring SUD/MH issues who are leaving jail or prison or who have recently left jail or prison.
7. Support critical time interventions (CTI), particularly for individuals living with dual-diagnosis OUD/serious mental illness, and services for individuals who face immediate risks and service needs and risks upon release from correctional settings.

D. WOMEN WHO ARE OR MAY BECOME PREGNANT

1. Evidence-informed treatment, including MAT, recovery, and prevention services for pregnant women or women who could become pregnant and have OUD.
2. Training for obstetricians and other healthcare personnel that work with pregnant women and their families regarding OUD treatment.

3. Other measures to address Neonatal Abstinence Syndrome, including prevention, care for addiction and education programs.
4. Child and family supports for parenting women with OUD.
5. Enhanced family supports and child care services for parents receiving treatment for OUD.

E. PEOPLE IN TREATMENT AND RECOVERY

1. The full continuum of care of recovery services for OUD and any co-occurring substance use or mental health issues, including supportive housing, residential treatment, medical detox services, peer support services and counseling, community navigators, case management, and connections to community-based services.
2. Identifying successful recovery programs such as physician, pilot, and college recovery programs, and providing support and technical assistance to increase the number and capacity of high-quality programs to help those in recovery.
3. Training and development of procedures for government staff to appropriately interact and provide social and other services to current and recovering opioid users, including reducing stigma.
4. Community-wide stigma reduction regarding treatment and support for persons with OUD, including reducing the stigma on effective treatment.
5. Engaging non-profits and faith community as a system to support family members in their efforts to help the opioid user in the family.

II. PREVENTION

F. PRESCRIBING PRACTICES

1. Training for health care providers regarding safe and responsible opioid prescribing, dosing, and tapering patients off opioids.
2. Academic counter-detailing.
3. Continuing Medical Education (CME) on prescribing of opioids.
4. Support for non-opioid pain treatment alternatives, including training providers to offer or refer to multi-modal, evidence-informed treatment of pain.
5. Fund development of a multistate/national prescription drug monitoring program (PDMP) that permits information sharing while providing appropriate safeguards on sharing of private information, including but not limited to:

- a. Integration of PDMP data with electronic health records, overdose episodes, and decision support tools for health care providers relating to OUD.
 - b. Ensuring PDMPs incorporate available overdose/naloxone deployment data, including the United States Department of Transportation's Emergency Medical Technician overdose database.
6. Educating dispensers on appropriate opioid dispensing.

G. MISUSE OF OPIOIDS

1. Corrective advertising/affirmative public education campaigns.
2. Public education relating to drug disposal.
3. Drug take-back disposal or destruction programs.
4. Fund community anti-drug coalitions that engage in drug-abuse prevention efforts.
5. School-based programs that have demonstrated effectiveness in preventing drug misuse and seem likely to be effective in preventing the uptake and use of opioids.
6. Support community coalitions in implementing evidence-informed prevention, such as reduced social access and physical access, stigma reduction – including staffing, educational campaigns, or training of coalitions in evidence-informed implementation.
7. School and community education programs and campaigns for students, families, school employees, school athletic programs, parent-teacher and student associations, and others.
8. Engaging non-profits and faith community as a system to support prevention.

H. OVERDOSE DEATHS AND OTHER HARMS

1. Increasing availability and distribution of naloxone and other drugs that treat overdoses to first responders, overdose patients, opioid users, families and friends of opioid users, schools, community navigators and outreach workers, drug offenders upon release from jail/prison, and other members of the general public.
2. Training and education regarding naloxone and other drugs that treat overdoses for first responders, overdose patients, patients taking opioids, families, schools, and other members of the general public.

3. Developing data tracking software and applications for overdoses/naloxone revivals.
4. Public education relating to emergency responses to overdoses.
5. Free naloxone for anyone in the community.
6. Public education relating to immunity and Good Samaritan laws.
7. Educating first responders regarding the existence and operation of immunity and Good Samaritan laws.
8. Syringe service programs, including supplies, staffing, space, peer support services, and the full range of harm reduction and treatment services provided by these programs.
9. Expand access to testing and treatment for infectious diseases such as HIV and Hepatitis C resulting from intravenous opioid use.

III. ADDITIONAL AREAS

I. SERVICES FOR CHILDREN

1. Support for children's services: Fund additional positions and services, including supportive housing and other residential services, relating to children being removed from the home and/or placed in foster care due to custodial opioid use.

J. FIRST RESPONDERS

1. Law enforcement expenditures relating to the opioid epidemic.
2. Educating first responders regarding appropriate practices and precautions when dealing with fentanyl or other drugs.
3. Increase electronic prescribing to prevent diversion and forgery.

K. COMMUNITY LEADERSHIP

1. Regional planning to identify goals for opioid reduction and support efforts or to identify areas and populations with the greatest needs for treatment intervention services.
2. Government dashboard to track key opioid-related indicators and supports as identified through collaborative community processes.

L. STAFFING AND TRAINING

1. Funding for programs and services regarding staff training and networking to improve staff capability to abate the opioid crisis.
2. Support infrastructure and staffing for collaborative cross-systems coordination to prevent opioid misuse, prevent overdoses, and treat those with OUD (e.g., health care, primary care, pharmacies, PDMPs, etc.).

M. RESEARCH

1. Funding opioid abatement research.
2. Research improved service delivery for modalities such as SBIRT that demonstrate promising but mixed results in populations vulnerable to OUD.
3. Support research for novel harm reduction and prevention efforts such as the provision of fentanyl test strips.
4. Support for innovative supply-side enforcement efforts such as improved detection of mail-based delivery of synthetic opioids.
5. Expanded research for swift/certain/fair models to reduce and deter opioid misuse within criminal justice populations that build upon promising approaches used to address other substances (e.g. Hawaii HOPE and Dakota 24/7).
6. Research expanded modalities such as prescription methadone that can expand access to MAT.

N. OTHER

1. Administrative costs for any of the approved purposes on this list.
