

██████████
I know that calling ██████████ or visiting ██████████ would be a convenient way to talk to you in case you don't cooperate. Don't even try to escape from this. You've no idea what I'm capable of in ██████████

I suggest you read this message carefully. Take a moment to chill, breathe, and analyze it thoroughly. We're talking about something serious here, and I don't play games. You don't know me whereas I know you and right now, you are wondering how, correct?

Well, you've been a bit careless lately, clicking through those girlie videos and clicking on links, stumbling upon some not-so-safe sites. I actually installed a Malware on a porn website and you accessed it to watch (if you know what I mean). While you were watching those videos, your system started functioning as a RDP (Remote Protocol) which allowed me complete access to your smartphone. I can peep at everything on your display, flick on your camera and mic, and you wouldn't even notice. Oh, and I've got access to all your emails, contacts, and social media accounts too.

Been keeping tabs on your pathetic life for a while now. It's simply your bad luck that I came across your bad deeds. I gave in more time than I should have investigating into your data. Extracted quite a bit of juicy info from your system and I've seen it all. Yeah, Yeah, I've got footage of you doing embarrassing things in your house (nice setup, by the way). I then developed videos and screenshots where on one side of the screen, there's whatever garbage you had been watching, and on the other part, it's someone doing nasty things. With simply a click, I can send this filth to all of your contacts.

I see you are getting anxious, but let's get real. In good faith, I'm ready to wipe the slate clean, and let you continue with your daily life and wipe your slate clean. I will present you two alternatives.

Alternative one is to disregard this mail. You should know what will happen if you take this path. Your video will get sent to your contacts. The video was lit, and I can't even fathom the humiliation you'll face when your colleagues, friends, and fam see it. But hey, that's life, ain't it? Don't be playing the victim here.

Second option is to pay me, and be confidential about it. We will name this my "privacy charges". Now Lets see what happens when you choose this way out. Your secret remains private. I will destroy all the data and evidence once you send payment. You'll send the payment through Bitcoin only. Pay attention, I'm telling you straight: 'We gotta make a deal'. I want you to know I'm coming at you with good intentions. I'm a person of integrity.

Required Amount: \$1950

BITCOIN ADDRESS: ██████████

Once you pay up, you'll sleep like a baby. I keep my word.

Pay Attention: You got one day to sort this out and I will only accept Bitcoin. I've a special pixel within this e mail, and at this moment I've been notified that you've read through this e-mail. This email and Bitcoin address are custom-made for you, untraceable. If you are unfamiliar with Bitcoin, google it. You can buy it online or through a Bitcoin ATM in your neighborhood. There's no point in replying to this email or negotiating, it's pointless my price is fixed. As soon as you send the complete payment, my system will inform me and I will wipe out all the dirt I got on you. Remember if I catch that you've shared or discussed this mail with someone else, the garbage will instantly start getting sent to your contacts and I will post a physical tape to all of your neighborhood next week. And don't even think about turning off your phone or resetting it to factory settings, I already have all your data. I don't make mistakes, ██████████

Honestly, those online tips about covering your camera aren't as useless as they seem. Now, I am waiting for my payment..
