Percentage of reports where the reporting party sticks around to answer follow-up questions from Safe2Tell Analysts.

Key Data Points

Self Reports

137

Instances where the reporting party was making a report about themselves.

Attachments

240

Reports submitted that included an attachment or screenshot.

Report Follow-Ups

5,752

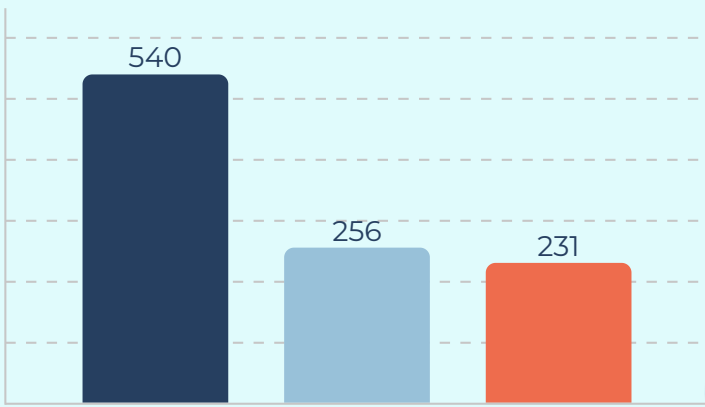

Ongoing interactions between school teams, law enforcement, and Safe2Tell analysts beyond the initial report review and investigation.

Citations/Arrests

6

Number of reports that resulted in a citation and/or arrest.

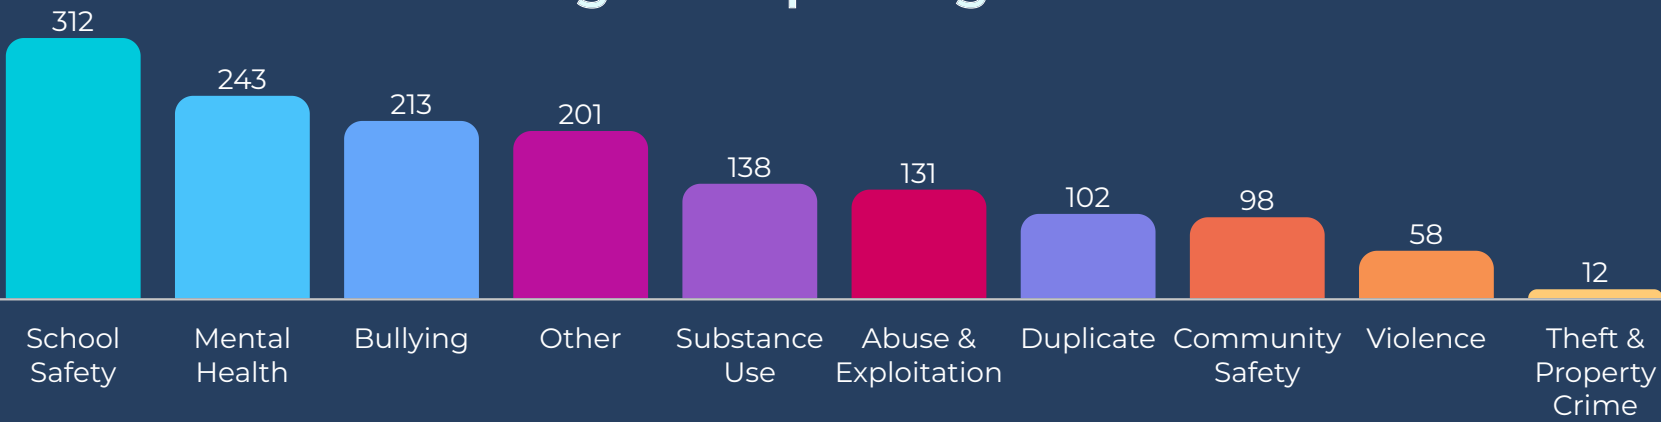

Common Outcomes

Parents Notified Counseling Welfare Check

Most common outcomes for Safe2Tell reports.

August Reporting Themes

Report Examples

- Safe2Tell received a report about a student who stated they wanted to harm and sexually assault another student and that they would harm themselves if the person making the report disclosed their comments. The School Resource Officer spoke with the student, who admitted making the statements but said they were a joke. The student received education on appropriate communication, their parent was contacted, school disciplinary action was taken, and a threat assessment was completed.
- A person reported that a student created an explicit AI-generated photo of a peer and shared it with classmates. School administration and the School Resource Officer spoke with the student, contacted their parent, and took school disciplinary action.

The information presented in this report is based on preliminary data provided by the Colorado Information Analysis Center, which processes Safe2Tell reports, and is subject to change. A routine audit is scheduled as part of our ongoing commitment to maintaining high standards of data integrity and transparency.
