

Office of Colorado Attorney General

I urge your office to oppose conversion of PACE from non-profit to for profit in Colorado.

As a taxpayer and health advocate it is important that money deducted from my salary provides direct services that protect the quality of life of seniors and disabled in Colorado. When the operator's primary concern is to secure a profit, even if this means reducing the number of credentialed health professionals or increasing workload. I urge your office to ensure the safety and health of seniors in our state.

Respectfully,
Rosario C. de Baca
