

**DEBT MANAGEMENT REGISTRATION INFORMATION
AS OF 1/31/2019**

This information allows you to verify whether a debt management service is registered by the State of Colorado. You may also determine whether there is any public record of action involving this office and the agency. The address listed is for the principal place of business. Contact our office for information on other branch office locations.

Debt Management Registration

Debt Management Registrations are required in most cases to provide debt management services. Only one registration is required regardless of the number of branches. Registrations expire July 1 of each year and must be renewed at that time.

“Status” Category

The “Status” category provides the following information:

A = registration is active

C = registration has been canceled

D = registration was denied

E = registration has expired due to failure to renew or maintain a surety bond/cash assignment

R = registration has been revoked

“Action” Category

In addition to the “Status” column that shows revocations, the “Action” category enables you to determine whether the registration was subject to legal or administrative action by this office or the registration entered into a voluntary settlement with this office. If the entry is “yes,” the registration may have been subject to one or more letters of admonition, suspension of the registration, a judgment or order against the registration, or other action, including payments (fines, penalties, consumer refunds, or other monetary payments). Additionally, “yes” may mean that the registration records include a voluntary settlement or stipulation with this office. If a registration has been disciplined, it might still retain its registration. Actions and settlements are matters of public record although research, copying, and mailing costs may apply. Contact this office for more information.
